Northern Graphite Announces Closing of Flow Through Share Private Placement

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

March 10, 2026: Northern Graphite Corporation (**NGC:TSX-V, NGPHF:OTCQB, FRA:0NG, XSTU:0NG**) (the “Company” or “Northern”) announces that it has completed a non-brokered private placement of 7,142,858 common shares of the Company issued on a flow-through basis at a price of \$0.28 per share for gross proceeds of \$2,000,000.

The common shares qualify as “flow-through shares” within the meaning of subsection 66(15) of the *Income Tax Act* (Canada) (the “Tax Act”). The gross proceeds of the private placement will be used to incur Canadian eligible resource exploration expenses that will qualify as “Canadian exploration expenses” as defined in the Tax Act, and “flow-through critical mineral mining expenditures” as defined in the Tax Act. The gross proceeds will be used to complete a drill program on a number of targets around Northern’s cornerstone, Lac des Iles (“LDI”) mine in Quebec, with the objective of identifying potential new sources of mill feed, or at its Mousseau exploration project.

In connection with the private placement, the Company paid a finders’ fee to Mine Equities Ltd., consisting of **503,971** common shares of the Company and \$55 in cash.

The common shares issued under the private placement including the finder’s fee shares are subject to a hold period of four months and one day from the date of issuance expiring on July 10, 2026. The private placement remains subject to final acceptance by the TSX Venture Exchange.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About Northern Graphite

Northern is a Canadian, TSX Venture Exchange listed company that is the only flake graphite producing company in North America. Northern is focused on becoming a world leader in producing natural graphite and upgrading it into high-value products critical to the green economy, including anode material for lithium-ion batteries/EVs, fuel cells and graphene, as well as advanced industrial technologies. The Company’s mine-to-battery strategy is spearheaded by its Battery Materials Group, which has a fully equipped, state-of-the-art laboratory in Frankfurt and is focused on advancing plans for developing battery anode material plants in Saudi Arabia, Quebec and France.

Northern’s graphite assets include the producing Lac des Iles mine in Quebec, where the Company is boosting output to meet growing demand from industrial customers and coming demand from North American battery makers. The Company also owns the large-scale, advanced stage Bissett Creek graphite project in Ontario and the fully permitted Okanjande graphite mine in Namibia, which is currently on care and maintenance, and represents

an opportunity to substantially increase graphite production at a lower cost and with a shorter time to market than most competing projects. All projects have “battery quality” graphite and are located close to infrastructure in politically stable jurisdictions.
